Featuring...

Mister Moonlight as Tony Barrovi,  
Mister Mustard as Klaus Voormann,  
Jeremy Boob as George Martin,  
and  
Mister Kite as Geoff Emerick.

*On the 17th of October 2005 the first in a legendary series of podcasts compiled by DinsdaleP was broadcast. Every week or so, a new edition followed.*

*They continued for 114 episodes until December the 11th 2007, an astonishing amount of material in such a short space of time and very hard work for the author who shared these with us.*

*At the time they were unique in both their content and production...in fact they still are... and although many have tried to emulate them none have succeeded.*

*Dinsdale has very kindly made the original lossless tapes available to Nowhere Man Records, who are privileged to present them in their entirety, along with one or two surprises.*

*Information about the content of each episode can be found in the following notes...we hope you enjoy listening to them as much as we enjoyed putting them together.*
